## ENTREPRENEURSHIP PROGRAMME

The main focus of the Programme is to identify, develop, promote, and nurture the entrepreneurial capacity of students. It is intended to ensure that students are more successful in terms of becoming economically active during and after their time in the college. This ensures that those with business ideas are supported to commercialize that idea into operational profitable business and provide continuous support of existing student businesses with different interventions based on needs analysis.

This is done through: business awareness, structured training programmes and support services that enables young entrepreneurs to maximize business potential, make profits and grow their business including assistance with funding opportunities.

Interested students are encouraged to contact their campus champions in order to register and take part in this programme.
